

# ARIEL BASIC PRODUCT TRAINING

Online Edition, 2.0

WORLD STANDARD  
**COMPRESSORS**

# ONLINE BASIC TRAINING COURSE

Ariel's eLearning course covers the content taught in our classroom setting. Completion of this eLearning course will qualify students for additional Ariel product training courses.

## MODULE TOPICS INCLUDE:

- Comprehensive Overview of Ariel Corporation
- Cylinders and Piston Rods
- Gas and Cylinder Characteristics
- Compressor Package Basics
- Packing Case and Oil Wiper Assemblies
- Bolt Design and Torque Techniques
- Force Feed Lubrication
- Piston Rings and Wear Bands
- Valve Operations and Components

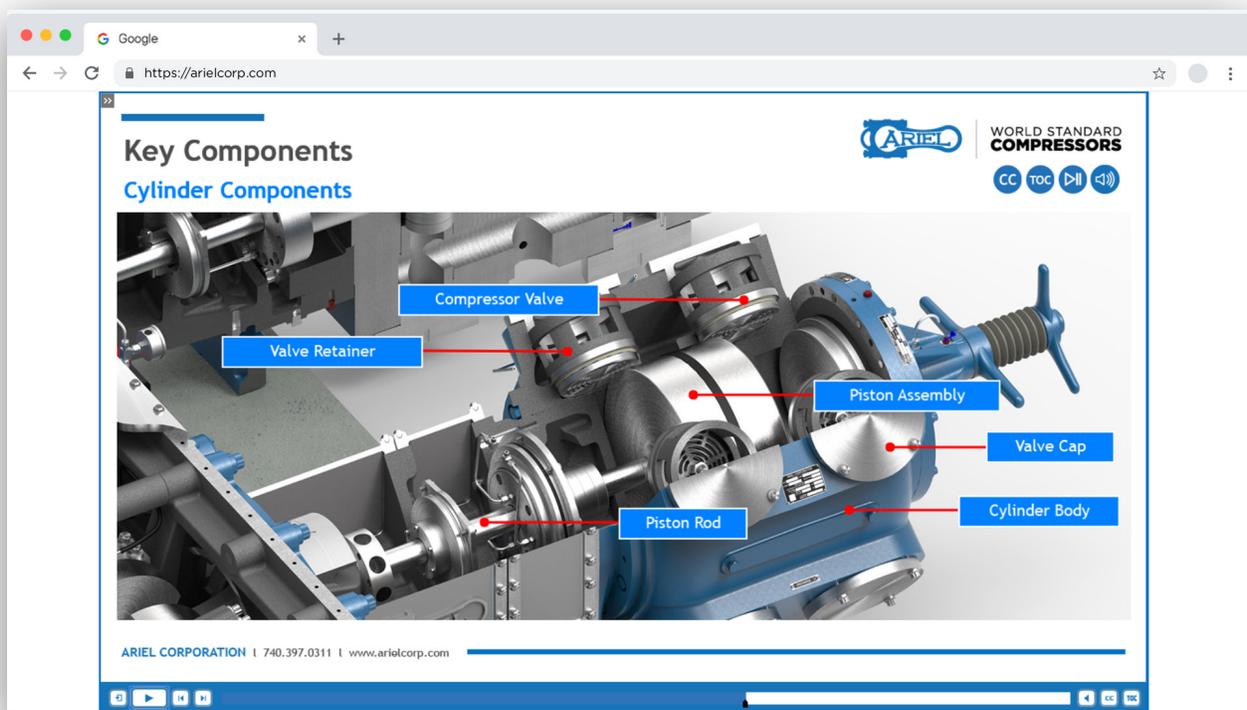

---

# COURSE OVERVIEW

The self-paced format of this online course allows users to access Ariel Online Basic Product Training anytime, anywhere.

Completion of the eLearning Online Basic course qualifies students to continue their compressor knowledge by attending training courses offered by Ariel Corporation. Former students who attend the Mechanics School and CNG Training are required to complete the Online Basic course to advance their mechanical knowledge and attend the Mechanics - Level 1 class.

Requires Ariel Members Only account, register online at [arielcorp.com](https://arielcorp.com).
