

Process Equipment Selection

[Process Frames](#): JGA: JGJ: JGK: JGT: JGD: JGF: KBU: KBB

[Process Cylinders](#): JG: RJ: K: T: D: F: U: B

Required Equipment for Process Offerings:

- [Wearbands](#) with a 5 psi piston and rod loading
- [Ion nitrided cylinder bores](#)
- [Helium leak testing](#) of cylinders in applications less than 12 MW
- [Long two compartment distance pieces \(API-618 Type C\)](#)
- [Purged](#) and [water cooled](#) packing with lapped packing cups
- Purged intermediate and wiper packing
- Indicator taps on cylinders

Optional Equipment Available for Process Offerings (typical additions)

- [Non-lubricated cylinder design](#)
- [Suction valve unloaders](#)
- [Tungsten carbide](#) piston rod coating
- BICERA crankcase doors
- Stainless steel tubing with stainless steel fittings
- [Material certification](#)

Capacity and Power Guarantee Tolerances within the Reciprocating [Packager's Standard Section 2](#).
